

Membership Request from the Association for Community Health Improvement

August 15, 2016

Overview

The Association for Community Health Improvement (ACHI) is requesting preliminary membership in the Council on Linkages Between Academia and Public Health Practice (Council). [ACHI's membership request](#) is included in the meeting materials, and additional information about ACHI is available on its website at <http://www.healthycommunities.org/>.

Action Item: Vote on Membership Request

During this meeting, a vote will be held to determine whether to grant ACHI preliminary membership in the Council. As a reminder, an organization granted preliminary membership will serve as a preliminary member of the Council for a period of one year, at which time a vote will be held to determine whether to grant the organization full membership status. Each Council member organization has one vote, and this vote must be cast by the organization's official Council representative or designee.
