Overview

- What are the Core Competencies for Public Health Professionals and how are they being used?
- How have they changed?
- Is there anyone out there who can help with their use?!?!?

Council on Linkages Between Academia and Public Health Practice

- To improve public health practice, education, and research by:
 - Fostering, coordinating, and monitoring links among academia and the public health and healthcare community;
 - Developing and advancing innovative strategies to build and strengthen public health infrastructure; and
 - Creating a process for continuing public health education throughout one's career.

Feedback Received – Over 1,000 Comments

- Retain 8 domains
- Clarify and simplify individual competencies
- Assure each competency is truly only one competency
- Add new concepts – health reform, accreditation, social marketing
- Add more examples
- Reorder competencies in a more logical order
- Don't move competencies from one domain to another
- Add another tier
- Help with use of the Core Competencies

Clarify and Simplify

- **2010:** Applies communication and group dynamic strategies (e.g., principled negotiation, conflict resolution, active listening, risk communication) in interactions with individuals and groups (3B6)
- **2014:** Facilitates communication among individuals, groups, and organizations (3B7)

Add More E.G.s

- **2010:** Negotiates for the use of community assets and resources (5B8)
- **2014:** Explains the ways assets and resources (e.g., Boys & Girls Clubs, public libraries, hospitals, faith-based organizations, academic institutions, federal grants, fellowship programs) can be used to improve health in a community (5B9)

Reduce Jargon

- **2010:** Incorporates systems thinking into public health practice (8B2)
- **2014:** Explains the ways public health, health care, and other organizations can work together or individually to impact the health of a community (8B3)

Add New Concepts
