

What is TRAIN?

A centralized, searchable database of courses relevant to public health and used by over 850,000 professionals, TRAIN is a dynamic network that ensures access to high quality training across a spectrum of formats.

Developed by Public Health Foundation in response to state requests for training that would efficiently prepare the workforce, TRAIN operates through collaborative partnerships with state and federal agencies, local and national organizations, and educational institutions.

Course Provider Benefits

- > advertise courses for free
- > nationwide publicity
- > save time and money
- > share trainings across states
- > utilize multiple course formats
- > send individual or group emails
- > hone in on your target audience
- > easy to use

TRAIN Course Providers Can...

- > manage online registration, course rosters, waitlists, and certificates
- > host online discussions and post course materials
- > assign competencies to courses
- > develop custom pre/post tests and evaluations
- > analyze data on course availability and learner participation

Course Listing Requirements

The following are the minimum course listing requirements for TRAIN.

1. Courses must be designed for the continuing education and training of professionals who protect the public's health and consistent with the target audiences in the TRAIN course search fields. Consumer-oriented health education classes and materials are not permitted.
2. Courses must be designed to build knowledge, skills, or competencies in one or more of the subject areas listed in the TRAIN course search fields.
3. Course materials must be designed for instructional (not reference) use by learners or trainers. Courses must be delivered in formats consistent with the formats in the TRAIN course search fields. Books, brochures, articles, palm cards, and other reference materials are not permitted unless continuing education credits are associated or the materials are designed as a self-study program.
